

MS 3 Business Rules

**Soldiers - Readiness
Improved Warfighting Support**

20 June 00

MS 3 Definition

Incorporate O&M stocks above the PLL/shop stocks into the SSF

- Includes the Army National Guard
- Implement in FY 02 following BOD approval
- Includes NAMI in SARSS and AMCISS
- GCSS-A partially deployed
- SSF MS 3 won't degrade current materiel readiness
- MS 3 business rules apply Army-wide at the implementation of MS 3
- All repair and return to stock will be managed by the NMM

MS 3 Assumptions

- **Adequate, Balanced Direct Funded OPTEMPO /BASOPS**
- **MS 1 and 2 are event driven and fully implemented**
- **Installation Supply Buffer (ISB) in place Army-wide**
- **AMCISS financial processing formerly done in RASFIARS will be done in CCSS-F**
- **Non-SARSS (GCSS-A)/non-AMCISS inventory and requirements are out of SSF**
- **AMCISS and SARSS FEDLOG AMI/NAMI CL II and IX secondary items, CL II (less major items) and CL IIIP and IV are in SSF (NSN's only).**
- **National Guard inventory is capitalized in MS 3**
- **Must interface with STANFINS, DJAS and SABERS**
- **A test, demonstration, and risk mitigation plan for MS 3 is required**
- **DJAS and GCSS-A (tier I) will be partially fielded**

MS 3 Assumptions (Cont'd)

- **Implement MS 3 upon approval of BOD (FY 02)**
- **Stocks will be owned by the AWCF. TDA civilian personnel and contract personnel supporting the AWCF will be funded on a reimbursable basis. Military personnel are not reimbursable.**
- **Resources/enablers are available to Demo for MS 3**
- **NSN stocked local purchase items will be purchased using AWCF-SMA**
- **AWCF funded ASLs are deployable**
- **Immediate issues under MS3 will continue to occur for OMA customers as it does in OMA SSAs today**
- **SSF at MS 3 will accommodate emerging Army doctrine**
- **USASOC stocks are not capitalized in the SSF**
- **Consumer-funded contingency stocks will be excluded from the SSF**

Material Management

- **MBR 1:** OVERALL NATIONAL RETENTION LEVEL DECISIONS WILL BE MADE DURING THE REQUIREMENTS DETERMINATION COMPUTATIONS PROCESS IN CCSS, INCLUDING ABF CONSIDERED ASSETS. RETENTION BELOW THAT WILL BE IAW HQDA POLICY.
- **MBR 2:** THE NATIONAL REQUIREMENTS DETERMINATION PROCESS WILL COMPUTE STOCKAGE REQUIREMENTS FOR NON-DEPLOYABLE/NON-TACTICAL SSAs BASED UPON CONSUMPTION DEMANDS, COMMANDER'S MISSION REQUIREMENTS, AND PROGRAM ADJUSTMENTS (I.E., INSURANCE ITEMS, PROVISIONING, LOW DENSITY SUPPORT, AND OTHER UNPREDICTABLE, SEASONAL, LEGAL, CLIMATIC AND SAFETY ITEMS).
- **MBR 3:** TO SUPPORT MISSION REQUIREMENTS, AND IAW DA POLICY, COMMANDERS WILL CONDUCT TACTICAL LEVEL ASL REVIEW BOARDS IN PARTNERSHIP WITH AMC.
- **MBR 4:** TACTICAL COMMANDERS WILL PROVIDE CCSS/AMC WITH A SEARCH MATRIX FOR REFERRALS WITHIN INSTALLATION OR GEOGRAPHIC AREA. (Geographic area is intended for OCONUS, ARNG and USAR.)
- **MBR 5:** CUSTOMERS WILL TURN IN CONSUMER FUNDED EXCESS AND UNSERVICEABLES TO THEIR SERVICING SSA.

National Maintenance Management

- **NBR 1:** ALL COMPONENT REPAIR DATA SUPPORTING THE NMM WILL FEED EMIS IN AN AUTOMATED FASHION.
- **NBM 2:** MACOMs WILL PARTICIPATE IN THE NMM NATIONAL COMPONENT REPAIR PROGRAM REVIEWS.
- **NBR 3:** SOURCE OF REPAIR BELOW DEPOT LEVEL MAINTENANCE WILL BE CERTIFIED TO REPAIR SPECIFIC NSNs IN THE AWCF-SMA NMP.
- **NBR 4:** AMC WILL USE THE MAINTENANCE CONTRACT DATABASE (MCDB) AS THE MANAGEMENT TOOL FOR CONTRACT CONSOLIDATION AND MONITORING CONTRACT PERFORMANCE.
- **NBR 5:** NMM WILL MANAGE COMPONENT REPAIR AND AWCF STOCK RETURNS AT ALL LEVELS.
- **NBR 6:** SOURCE OF REPAIR FACILITIES WILL COMPLY WITH ISO 9000-2.

Financial Management

- **FBR 1:** O&M SSA ASSETS (EXCLUDING PLL & SHOP STOCKS) WILL BE CAPITALIZED DURING CONVERSION. DETAILS ARE PROVIDED IN THE DEMONSTRATION/IMPLEMENTATION PLANS.
- **FBR 2:** CREDIT DEOBLIGATION WILL BE GRANTED UPON POSTING OF THE CUSTOMER TURN-IN (D6_) TO THE AWCF-SMA SARSS-1.
- **FBR 3:** AN AUTOMATED PROCESS WILL MANAGE REIMBURSEMENTS ASSOCIATED WITH AWCF SUPPLY AND MAINTENANCE ACTIVITIES.
- **FBR 4:** CONSUMER FUNDS WILL BE RECONCILED BY AN AUTOMATED SYSTEM.

End State Characteristics

End State = The point in time that Army has achieved the objectives and performance goals outlined in the business rules, with BOD approval.

1. **Currently planned for end of FY 02, 30 Sep 02.**
2. Transparent to user (AMI vs NAMI).
3. Requirements Determination Optimization and capability to optimize distribution process evolving. HOWEVER, Commanders must retain capability to determine ASL stockage requirements IAW DA policy.
4. Concerns about deployment under SSF have been successfully resolved (excluding existing problems).
5. Integrated supply and financial processes.
6. O&M organizations have adequate funds for materiel, training and BASOPS/RPM.
7. AMC is the logistics manager for the Army through partnership with the MACOMs and IAW HQ DA policy.
8. Materiel Readiness is equal to or better than before.
9. The articulated goals for SSF must be limited to those able to be achieved by MS 3 end state. Longer term changes must be identified as separate projects.

End State Characteristics

End State = The point in time that Army has achieved the objectives and performance goals outlined in the business rules, with BOD approval; currently planned for end of FY 02, 30 Sep 02.

- **SARSS/AMCISS NAMI is in Army stock fund**
- **Transparent to user (AMI vs NAMI)**
- **Requirements Determination Optimization will begin at the non-deployable/non-tactical levels and will evolve. However, Commanders must retain capability to determine ASL stockage requirement IAW DA policy.**
- **Solves deployment concerns**
 - **Deployable and Supportable**
 - **Automated capability to push materiel to Theater**
 - **Supports a better “Go to War” asset posture**

End State Characteristics

- **Supply and financial systems interact**
- **Resource neutral**
 - **Responds to readiness/deployment/BASOPS requirements**
- **SSF management by AMC with oversight by HQDA**
- **Defense Logistics Modernization System will continue to evolve**
- **Materiel Readiness must be equal to or or better than today**
 - **Includes scheduled, dependable delivery and asset visibility**
 - **Customer wait time is minimized**
- **The articulated goals for SSF have been achieved.**
 - **Longer term changes were identified as separate projects.**
